For its versatility, comfort, durability, high quality, and maximum stability. This L'Antic Colonial series is made up of fourteen lines: Art Deco, Branch, Contract, Eco, Empire, Hotel Air, Kingdom, Legend, Multiformat, Oak, Rock, Roll Contract, Wall Contract and Wall Contract Custom.

In addition, these lines include references with different formats ranging from long boards for indoor floors to rolls for indoor floor or wall areas. These fabrics with revolutionary fibers combine vinyl flooring's use and resistance properties, with the look and texture of a fabric. In turn, the simulated wood finishes offer an accurate resemblance to wood's naturalness and warmth.

Por su versatilidad, confort, durabilidad, gran calidad y máxima estabilidad. Catorce colecciones componen esta serie de L'Antic Colonial: Art Deco, Branch, Contract, Eco, Empire, Hotel Air, Kingdom, Legend, Multiformat, Oak, Rock, Roll Contract, Wall Contract y Wall Contract Custom.

Además, estas colecciones abarcan referencias con diferentes formatos que van desde alargadas lamas con las que pavimentar espacios interiores hasta rollos con los que pavimentar o revestir áreas indoor. Estos tejidos con fibras revolucionarias combinan las propiedades de uso y resistencia propias de los pavimentos vinílicos, con la estética y la textura textil. Por su parte, los acabados simulados de madera ofrecen una precisa semejanza a la naturalidad y calidez de la madera.

Pour sa polyvalence, son confort, sa durabilité, sa grande qualité et sa stabilité incomparable. Quatorze collections composent cette série de L'Antic Colonial: Art Déco, Branche, Contrat, Eco, Empire, Hotel Air, Kingdom, Legend, Multiformat, Oak, Rock, Roll Contract, Wall Contract et Wall Contract Custom.

Ces collections comprennent aussi des références avec différents formats : des lames allongées pour revêtir les sols des espaces intérieurs, ou encore des rouleaux pour les revêtements de sols et de murs de zones indoor. Ces tissus munis de fibres révolutionnaires allient les propriétés d'utilisation et de résistance propres aux revêtement de sols vinyliques, à l'esthétique et à la texture du textile. De leur côté, les finitions qui imitent le bois sont extrêmement fidèles à la nature et à la chaleur de ce matériau.

Wall / Floor Covering Wall Contract Steel / Roll Contract Steel

This product, depending on the line we choose, can be used both for wall covering and flooring, making it ideal for more demanding public spaces such as hotels, offices, restaurants... On the other hand, we find that Linkfloor has high resistance to stains, abrasion, UV rays... We thus have a true technical innovation, a suitable product for a wide variety of applications and with extensive reliability and longevity.

Este producto, dependiendo de la colección que escojamos, puede ser utilizado tanto para revestir como para pavimentar espacios, siendo ideal para espacios públicos más exigentes como hoteles, oficinas, restaurantes... Por todo esto, nos encontramos ante una verdadera innovación técnica, un producto apto para una gran variedad de usos y con una amplia fiabilidad y longevidad.

Quelle que soit la collection choisie, ce produit peut être utilisé comme revêtement de sols ou de murs, et il est idéal pour les espaces publics les plus exigeants tels que les hôtels, les bureaux, les restaurants, etc. C'est pourquoi il s'agit d'une véritable innovation technique, d'un produit qui convient à une grande variété d'utilisation, extrêmement fiable et durable.

Linkfloor is made up of different layers that have a braided textile finish or a look simulating natural wood on their top part, depending on the line in the question. Another positive point of this product is its resistance to water and moisture. On the other hand, we find that Linkfloor also has high resistance to stains, abrasion, UV rays... In addition, this material offers an innovative solution with a cutting-edge design that adapts perfectly to the most demanding settings, providing functionality and durability to this product.

El Linkfloor está compuesto por diferentes capas que, en su parte superior, cuentan con un acabado textil trenzado o con un aspecto que simula el de la madera natural, dependiendo de la colección de la que se trate. Otro punto favorable de este producto es su resistencia al agua y la humedad. Por otra parte, encontramos que el Linkfloor también tiene gran resistencia a las manchas, la abrasión, los rayos UV... Además, este material ofrece una solución innovadora con un diseño puntero que se adapta perfectamente a los entornos más exigentes, aportando funcionalidad y durabilidad a este producto.

Linkfloor est constitué de plusieurs couches dont la partie supérieure est munie d'une finition en textile tressé ou semblable au bois naturel, en fonction de la collection. Un autre point fort de ce produit est sa résistance à l'eau et à l'humidité. Linkfloor est également très résistant aux taches, à l'abrasion, aux rayons UV, etc. Ce matériau représente par ailleurs une solution innovante allée à un design actuel, qui s'adapte parfaitement aux espaces les plus exigeants, et donne au produit toute sa fonctionnalité et sa durabilité.

# EASY INSTALLATION

Fácil Instalación  
Pose Facile

Floor Covering Hotel Air Decape

This product has two simple ways for installing: floating, thanks to the Lock system for some lines, and glued for others. The first one lets us fit the pieces together, eliminating the gaps between different pieces of the material. The pressure exerted between the pieces thanks to this installation method strengthens the joint and prevents the material from being installed incorrectly. On the other hand, the second method, gluing, consists in applying the bonding product on the floor and installing the Linkfloor over it afterward. This gluing method is used for installing the rolls and Art Deco. We would like to point out that before carrying out these simple installations, it is necessary to read the installation instructions and to ensure that the surface is flat as well as clean, dry, and free from moisture.

Este producto tiene dos sencillos modos de instalación: el flotante, gracias al sistema Lock, para unas colecciones y el encolado para otras. El primero de estos permite encajar las piezas entre sí eliminando las rendijas entre los diferentes fragmentos del material. La presión que se ejerce entre las piezas gracias a este método de instalación refuerza la unión y evita que el material se coloque de manera incorrecta. Por otro lado, el segundo de los métodos es el encolado que consiste en aplicar el producto de pegado en el suelo para, seguidamente, instalar encima el Linkfloor. Este método de encolado es utilizado para la instalación de los rollos y Art Deco. Cabe recordar que antes de realizar estas simples instalaciones es necesario leer las instrucciones de colocación y que la superficie esté plana, así como limpia, seca y sin humedad.

Pour ce produit, il existe deux modes de pose simples : la pose flottante pour certaines collections, grâce au système Lock, et l'encollage pour d'autres. Le premier permet d'emboîter les pièces entre elles en éliminant les fentes. Grâce à cette méthode de pose, la pression exercée entre les pièces renforce l'assemblage et évite un mauvais montage du produit. La deuxième méthode est celle de l'encollage, qui consiste à appliquer le mortier-colle sur le sol pour ensuite poser par dessus Linkfloor. On utilise cette méthode de collage pour la pose des rouleaux et Art Déco. Il convient de souligner qu'avant d'effectuer ces poses simples, il faut lire les instructions et avoir une surface plate, propre, sèche et exempte d'humidité.

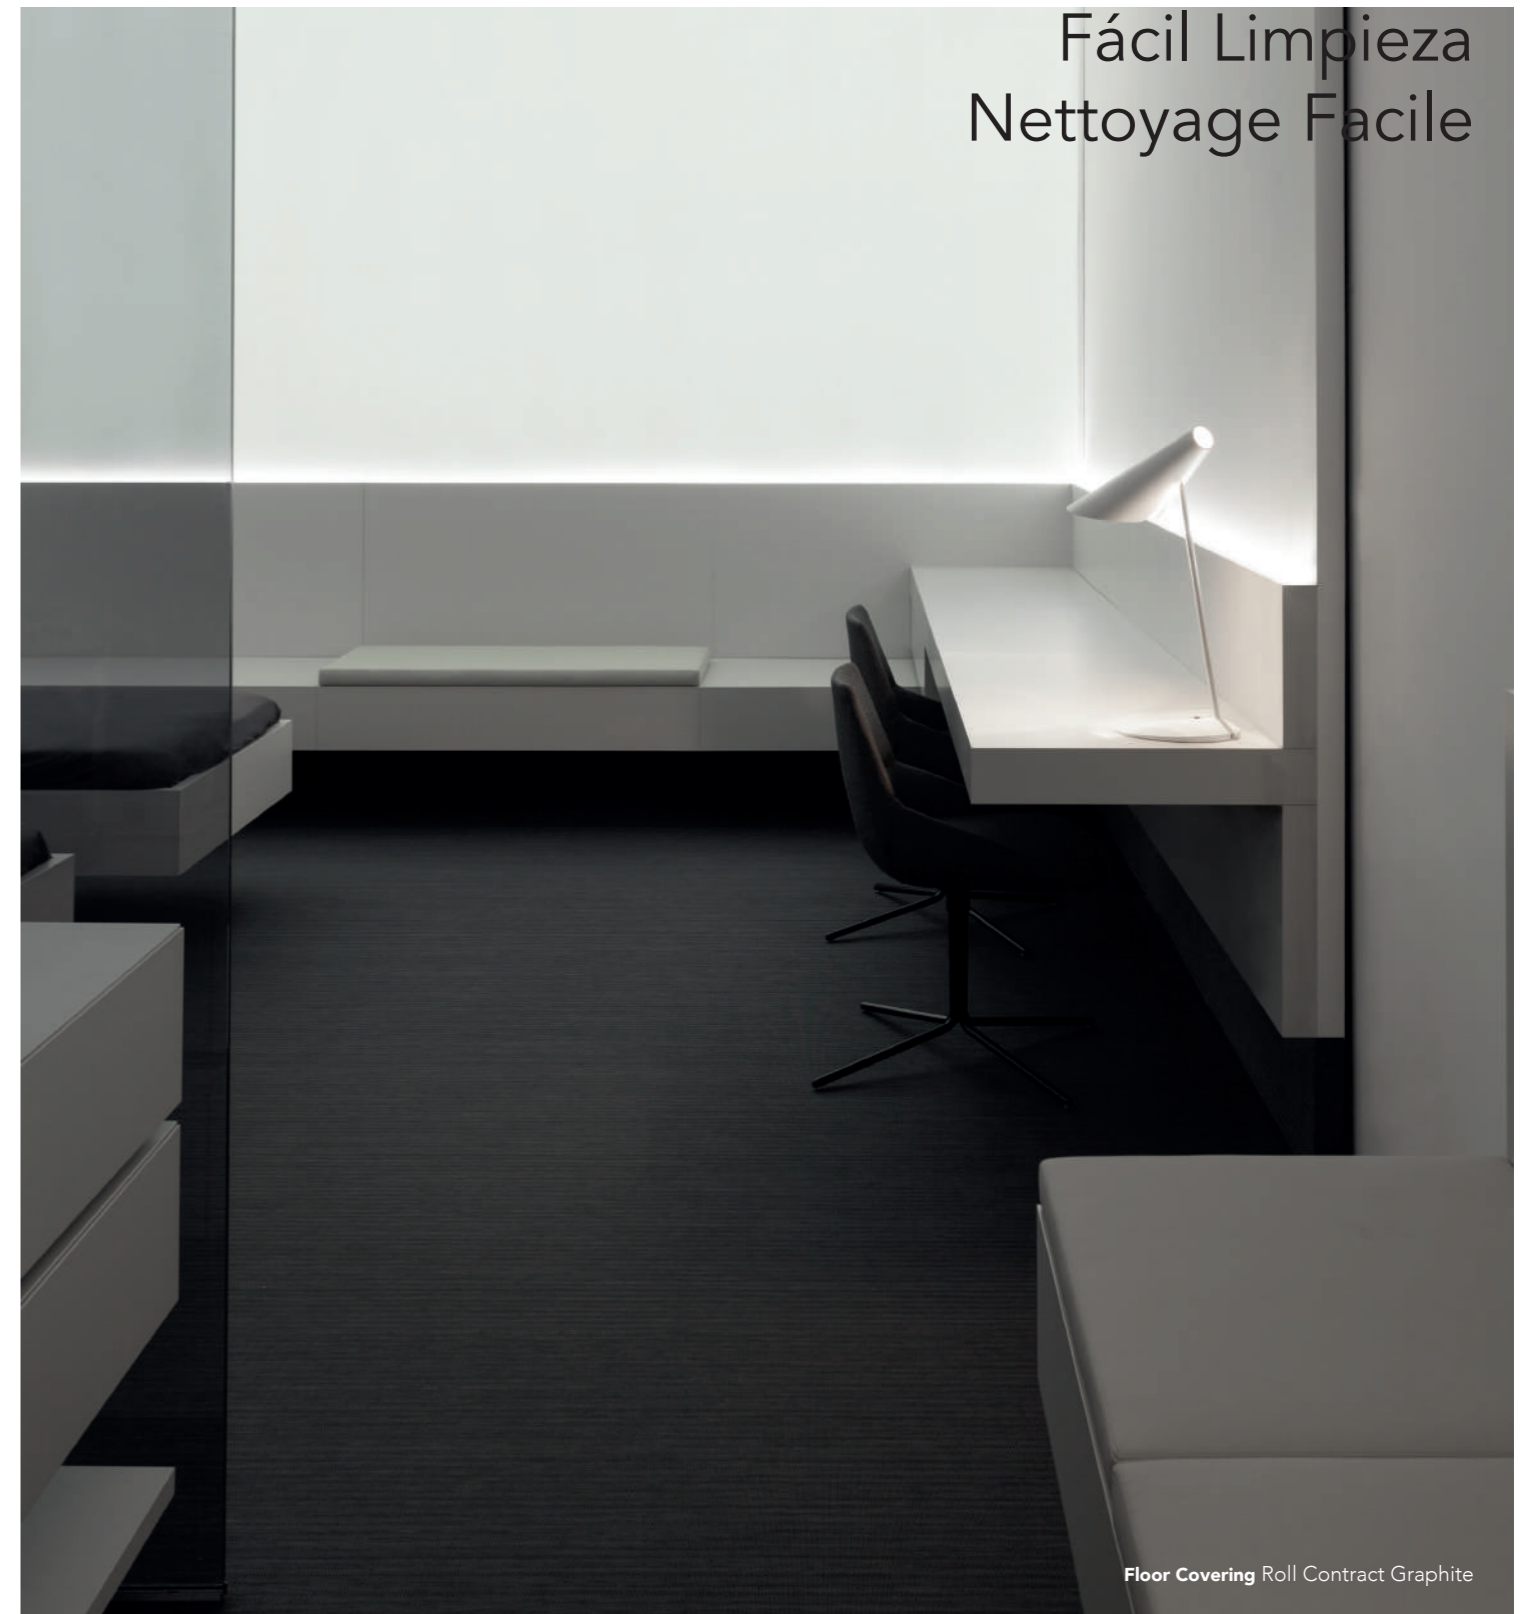

The first step for cleaning the Linkfloor takes place immediately after installation, as we must wipe with a damp cloth and carry out the first cleaning with the recommended product Clean&Green Active. With time, the importance of prevention will be the best way to keep our Linkfloor materials clean, thus preventing them from getting dirty. However, the daily cleaning of this product is very simple and an in-depth cleaning will only be needed from time to time in order to recover the initial look of our Linkfloor materials.

El primer paso para la limpieza del Linkfloor se produce inmediatamente después de su instalación, ya que debemos pasar un paño húmedo y realizar la primera limpieza con el producto recomendado Clean&Green Active. Con el tiempo, la importancia de prevenir será la mejor manera de mantener limpios nuestros materiales Linkfloor, evitando así que estos se ensucien. Sin embargo, la limpieza diaria de este producto es muy sencilla y solamente de manera periódica deberá hacerse una limpieza en profundidad con la finalidad de recobrar el aspecto inicial de nuestros materiales Linkfloor.

La première étape du nettoyage de Linkfloor doit être effectuée juste après sa pose. Il faut en effet passer un chiffon humide et effectuer le premier nettoyage avec le produit recommandé Clean&Green Active. Avec le temps, la prévention est primordiale et reste la meilleure manière de maintenir les produits Linkfloor propres et d'éviter qu'ils ne se salissent. Dans tous les cas, le nettoyage quotidien de ce produit est très simple. C'est seulement de façon périodique qu'il faut nettoyer en profondeur, afin de retrouver l'aspect d'origine des produits Linkfloor.
